This story is about a donkey named **Amadeu!**

Amadeu was the only donkey on the farm. Other animals also lived there.

Amadeu pulled a cart daily, which performed various tasks on the farm. He could also cross dangerous ways that horses were afraid of. Besides, he was the only one who opened all the gates by himself.

The **donkey** has a medium size, snout and long ears.

The one who drove the cart was Mister Pedro. Pedro and Amadeu had a beautiful friendship, since they seemed to understand each other without saying anything to each other.

Spring arrived on the farm, and with it came a beautiful mare. Amadeu was the first to set eyes on that mare, unlike any other on the farm; she was slim and speedy.

The **mare** is an equine.

This mare had a gait that made Amadeu fall in love with her. From that moment on, he lived watching the mare run in the pasture.

And he took so many glances that Mister Pedro soon noticed his friend's interest and immediately warned him:  
- Amadeu, don't be fooled by this mare, they'll never let you get close to her.

Amadeu thought about approaching the beautiful mare.

But it was only Amadeu trying to open the gate of the pasture where she was, that the horses came neighing in his direction and he forced himself to escape.

On a day of great storm, full of thunder, lightning and strong wind, many animals were not found by the peons of the farm. Among them was the mare.

The searches began, and as Amadeu knew the entire farm from his work with Mister Pedro, he soon thought of a swamp, where an inexperienced horse could easily get bogged down and need help getting out.

**Storm** is an intense rain, with lightning, thunder and lightning.

As Amadeu managed to open all the gates, he headed towards the swamp.

When he arrived, he soon spotted the mare completely bogged down. She tried to free herself from that soft clay, but she couldn't.

Amadeu approached him and told him he was going to get help. He left immediately, at a run, braying loudly to draw everyone's attention to where the mare was.

A **swamp** is a flooded area with lots of marsh and mud.

Help soon arrived and they tried to use a horse to pull the mare, but the horse soon began to rear, as it was not used to that kind of harness.

Afterwards, the servants tried to use the tractor, but the rope began to hang the mare. Their last option was to use Amadeu to pull the mare, who accepted the harness and pulled with all his might. Soon his effort was met and the mare was out of that muddy place.

A **tractor** is a machine used to pull and transport heavy objects.

From that moment on, the mare began to look at Amadeu differently and to feel affection for that donkey that had done so much for her.

Amadeu and the mare to date with everyone's consent, and the following spring a beautiful little mule was born.

LOVE...  
LOVE...  
DIFFERENT LOVE...  
TRUE LOVE...  
IT'S JUST LOVE...
